

## Excitement Grows as Improvements Announced for the PA RV & Camping Show

Camp Hill, PA □ America's Largest RV Show, held in Hershey, PA explodes with excitement over the announcement of major improvements for the 2007 Show. The GIANT CenterSM is in the process of constructing more than 1,800 additional macadam parking spaces. The additional space will allow the entire display area and exhibitor parking to be placed on the GIANT CenterSM side of the entertainment complex. With the display area no longer divided by Park Boulevard, show attendees will gain additional parking at Hersheypark®. In addition to the new parking spaces, the center and park entrance toll areas are being redesigned, relocated and will be RV friendly. The new layout promises to move traffic off Hershey Park Drive in a more efficient manner.

“The Hershey Show is growing again, this time with much needed parking and design improvements ,” Rebecca Lenington, Executive Vice President of the PA RV & Camping Association says. “The exhibitors, as well as show attendees, will benefit from these new changes. Construction is clearly ahead of schedule as they plan to finish by May 2007. We are pleased that the GIANT CenterSM is demonstrating their commitment as a partner by reinvesting their profits into the facility to meet the needs of our customers.”

In addition to the layout improvements, shuttle stops, designated by colored balloons, will also be located throughout attendee parking. The shuttles will be available to transport attendees from the stops to the ticket booths. The Perimeter Tram service will return to guarantee attendees see all the Show has to offer. Free shuttle service will also be available to Hershey Lodge, Highmeadow Campground and Overnight Parking.
